Autodesk® AutoCAD LT® portfolio of products 2014
Product information

Save $200
on new licenses of
Autodesk AutoCAD LT products
or up to 20% on upgrades until
October 25, 2013.*

Product	SRP	Your Price	Save*
Autodesk AutoCAD LT New License	$1,200	$1,000	$200
Autodesk Inventor LT New License	$995	$795	$200
Autodesk AutoCAD Inventor LT Suite New License	$1,495	$1,295	$200
Autodesk Revit LT New License	$1,195	$995	$200
Autodesk AutoCAD Revit LT Suite New License	$1,495	$1,295	$200
Autodesk AutoCAD LT Upgrade	$840	$672	20%
Autodesk AutoCAD Inventor LT Suite Upgrade	$840	$672	20%
Autodesk AutoCAD Revit LT Suite Upgrade	$840	$672	20%

Target customer profiles

- Sole proprietors
- Small businesses (<20 employees)

Target customer titles

AutoCAD Revit LT Suite

- Architects
- Engineers

AutoCAD Inventor LT Suite

- Manufacturing firms
- Mechanical designers

AutoCAD LT

- Drafters
- Designers

Industries and SIC codes

- SIC code 8712 Architecture, Engineering, and Construction

- SIC code 8711 Engineering Services/Manufacturing

Autodesk Advanced Support

A premium service that provides:

- Telephone support—24 hours a day, five days a week
- Faster response times
- Remote desktop assistance
- Exclusive training webcasts

Advanced Support is available to customers who purchase Autodesk® Subscription.

Cost-effective design and drafting solutions

Autodesk AutoCAD LT 2014 suites help power 2D and 3D architectural and mechanical design workflows while delivering unmatched TrustedDWG™ reliability. Each AutoCAD LT suite includes Autodesk AutoCAD LT 2014, plus industry specific software for a low price.

- **Autodesk® AutoCAD LT® 2014:** provides powerhouse 2D documentation, collaboration, and productivity tools
- **Autodesk® AutoCAD® Revit LT™ Suite 2014:** adds Autodesk® Revit LT™ 2014 to deliver intuitive 3D Building Information Modeling (BIM) tools
- **Autodesk® AutoCAD® Inventor LT™ Suite 2014:** adds Autodesk® Inventor LT™ 2014 to help manufacturers add powerful 3D CAD modeling tools to their development process

Business value of LT suites

- **Industry-leading tools at a great value:** LT suites deliver 3D industry specific design tools plus AutoCAD LT 2D drafting in a cost-effective package
- **DWG interoperability:** helps customers maintain their current 2D productivity by using AutoCAD LT software when they prefer
- **Leverage existing investments in 2D designs:** work with existing AutoCAD LT 2D designs within a 3D environment

Customers should upgrade from AutoCAD LT to an LT suite to:

- Transition to 3D at their own pace with Revit LT or Inventor LT products, while continuing existing project work with AutoCAD LT
- Practice BIM or Digital Prototyping to concurrently design and document
- Visualize the design better with 3D orthographic or perspective views from any angle of the model
- Generate detailed documentation that can automatically update when designs change
- Create 3D design presentations that can express concept ideas
