Eee Slate B121-A1 Tablet PC

P/N: B121-A1, Intel Core i5-470UM processor, Intel GMA HD graphics, 4GB DDR3, 64GB SSD, 802.11b/g/n, Bluetooth V3.0, 4 Cell (34W/h) battery, up to 4.5 Hours battery life,* Windows®7 Professional (64 bit), Trusted Platform Module, Computrace®LoJack® ready, 1 YR North America warranty

The Intel Core i5 processor with HD graphics allocates power based on a user's current task at hand, supporting seamless multi-tasking and improving productivity.

The slate is Computrace®LoJack® ready, which helps safeguard valuable data by locating stolen PCs and locking and remotely deleting data in the event a user's notebook is stolen. LoJack features a dedicated Theft Recovery Team that works with local law enforcement to track and recover stolen mobile PCs.

Users can create and consume rich content via touch with the slate's 1280 x 800 LED-backlit WXGA multi-touch display with AFFS technology. The display supports a 178 degree wide viewing angle for easy sharing of content and is built with strong Corning Gorilla Glass for optimum durability.

Trusted Platform Module safeguards confidential data by encrypting data and files, authenticating and protecting passwords, offering network authentication, and protecting online communications and transactions.

The Eee Slate offers various input options which include touch with Palm Proof technology, stylus, or an external Bluetooth keyboard (included). The Wacom® Digitizer stylus enables more precise control and pressure recognition, which is ideal for design professionals.

Windows®7 Professional lets users connect to company networks easily and securely. The operating system is compatible with Windows XP programs to support older business applications and features advanced back up and restore options along with file encryption to help users safeguard their work.
