

WINDOWS 10 FACTORY PROVISIONING

Powered by VMware Workspace ONE

Windows 10 Factory Provisioning Services on Workspace ONE deliver an efficient onboarding experience on Windows computers to traditional and remote workers. Our high-capacity integration centers and over-the-air provisioning services deliver thousands of devices to employees, educators and students, all ready to go with the right configuration, apps and privileges from the moment they're powered-up.

STRATEGY

- Address key business objectives
- Planning sessions to evaluate your digital transformation, powered by Workspace ONE

EVALUATION & SELECTION

- Hands-on experience with Workspace ONE via product demos and VMware Test Drive
- Buying program and price modeling expertise

SOLUTION DESIGN

- Assistance from SHI's Workspace ONE Solution Architects to scope a solution that fits each unique use case

DEPLOYMENT

- Leverage SHI's relationships with industry leading vendors specialized in Endpoint Management
- Utilizing SHI's Integration Centers to ship pre-configured PCs directly to customers or end users

PROCUREMENT

- Custom e-commerce, financing and leasing options, and contracts support

SUPPORT

- Transition from deployment to white glove support for simplified solutions maintenance
- Complete a Workspace ONE annual health assessment
- Feature road map review, and assist with critical certificate expiry renewal

BENEFITS

- Quick and seamless onboarding of new employees
- Ship pre-configured PC directly to customer or end user
- Provide ready-to-work experience to user from first boot
- Move time, work and bandwidth into the SHI Integration Center
- Provision Applications, OS and Settings in the Factory and Configure Domain Join

WHY SHI

- Digital workspace master services competency
- Strong partnership with VMware
- Experienced team of experts
- Workspace ONE pre-sales engineers and architects
- Windows 10 and licensing specialists
- Service delivery engineers
- Support services
